

Flight Test Report

Real test engineers write one of these after every program. Now you do too.

TEST ENGINEER**DATE****DAYS FLOWN**

1. Label the Four Forces

Write one force in each box. Then tell someone what each one does.

2. My Best Result

Vehicle	The one thing I changed	Best number	Average of 3
Kite			
Boat			
Truck			

3. My Hypothesis

Before I started, I thought:

I was:

RIGHT

WRONG

SURPRISED

What I Learned

Write big. Wrong answers written down are still data.

4. My Biggest Surprise

What did not go the way I expected — and why I think that happened.

5. What I Would Change Next Time

The one thing I would do differently, and what I think would happen.

6. Words I Actually Used — check each one you said out loud

☐ Lift ☐ Weight ☐ Thrust ☐ Drag ☐ Friction ☐ Traction

☐ Inertia ☐ Hull ☐ Aerodynamics ☐ Center of Gravity

☐ Fluid ☐ Controlled Variable ☐ Trial ☐ Average

☐ Hypothesis
